MAXIMIZED VIEWS

By MITER Brands™

V4500

A woman with dark hair, wearing a grey t-shirt and a white cardigan, is sitting on a black leather sofa. She is smiling and looking down at a large, fluffy dog (likely a Border Collie) that is lying on the sofa. The dog is holding a small, brown, plush toy in its mouth. The room is bright and airy, with large white-framed windows in the background. A potted plant is visible on the right side of the frame. The overall atmosphere is warm and comfortable.

WHY WE'RE THE RIGHT CHOICE.

MI offers beautiful, worry-free windows to frame each life's little moments. Our exacting manufacturing processes and the innovations we develop mean you get reliable windows and doors that perform year after year. With MI, you'll receive a level of service and quality others simply can't match, backed with an industry-leading warranty.

100

Sunrise Collection™

By MI® Windows and Doors

Framing home in a new light

The path to perfect windows and doors has never been more clear. From tranquil mornings to lively family dinners, the Sunrise Collection™ by MI Windows and Doors seamlessly connects you to what matters most: high-quality products that combine beauty, comfort, and craftsmanship to frame life's most meaningful moments.

As a trusted brand for more than half a century, MI offers windows and sliding doors that promise long-lasting efficiency, protection, and exceptional quality day after day, year after year.

EXPERIENCE IS EVERYTHING

Our experts match you with attractive, reliable windows and patio doors that best fit your home, your needs, and your price point.

CONFIDENCE TO CREATE

We deliver the highest-quality windows and patio doors through our passion for craftsmanship and a relentless pursuit of 100%.

EVERY DETAIL, EVERY DAY

From robust testing and precision manufacturing processes to the innovations we develop for your comfort, every detail matters.

Bring your home to life

Complement your style and taste with windows and doors from our Sunrise® Series V4500. Stylish, hand-crafted, and energy-efficient, Sunrise® Series products place a heavy emphasis on aesthetics and charm while delivering exceptional thermal performance. Your home is your biggest investment. Give it the curb appeal and performance it deserves.

Beauty and variety

The V4500 is a comprehensive product line that contains a full range of windows. You can easily replace every opening with products exclusively from this series.

Efficiency and comfort

With a warm-edge spacer system, Low-E glass, and argon gas fill, our windows and doors provide superior energy performance.

Expand your view

The narrow-line design of Sunrise® Series V4500 windows takes full advantage of every available inch of the window opening. In replacement applications, Sunrise® Series windows provide up to 27% more glass area than other vinyl windows, allowing in more light and maximizing your view in every room of your home.

VIEWING AREA COMPARISON

Sunrise® Series Double Hung Window

Competitor's Vinyl Double Hung Window

“I MUST SAY THE WINDOWS ARE WELL WORTH THE MONEY. THEY LOOK VERY NICE AND HAVE SAVED US A TON OF MONEY ON OUR ENERGY BILLS SINCE 2015.”

Rose City, MI

Your unique style made to order

Our Sunrise® Series V4500 windows are hand-crafted to suit your needs. With narrow profiles that create maximum viewing areas and a wide range of aesthetic options, you can select windows and doors that will complement your home's style. All this while offering thermal packages to maximize energy efficiency.

BEAUTY YOU CAN CUSTOMIZE

Get the benefits of a vinyl window with standard features and custom options that bring the beauty of traditional wood windows to your home.

- **Coved glazing beads.** Our coved interior glazing beads add extra detail to elevate the style of our windows.
- **Woodgrain finishes.** Choose from six durable, low-maintenance wood-look options to custom match your home's interior style.
- **Architectural hardware.** Select standard hardware that matches your window's interior, or opt for an architectural finish for eye-catching detail.
- **Exterior colors and paints.** From basic black to ruby red, we have a spectrum of vinyl, capstock, and painted options.

A woman with long brown hair tied back in a ponytail, wearing a light blue button-down shirt, is looking at a window frame. She is standing in what appears to be a window display or a store. The window frame is dark-colored and has multiple panes. The background is slightly blurred, showing more window frames and a wooden wall.

Options made to suit your lifestyle

Quality replacement windows and doors can keep comfort in and weather and noise out, while improving the energy efficiency of your home — and enhancing its curb appeal. Our replacement windows are simple to install, easy to maintain, and feature numerous style and color choices.

THINGS TO CONSIDER WHEN CHOOSING YOUR WINDOW STYLE

Operating style. When we talk about an operating style, we are referring to whether or not the window opens to allow ventilation or, is an inoperable picture window that only allows light to come in. Each room in your home may have a different window need.

Security and privacy. New windows not only improve your home's appearance, but they also improve the privacy and safety of your home. Small accent windows, hung or sliding windows with vent latches, and windows with panes of obscure glass can allow light or air in while limiting visibility into your home. Casement and awning windows with optional egress hardware can help meet emergency and evacuation size requirements outlined in many building codes.

Location. Think about each room individually. First floor windows may differ from second or third floor windows regarding the size, where they are placed on the wall, and how they open. First choose where you want the window to be, and then think about what you want it to do

Ease of use. Operating and maintaining your windows should be a breeze. Make sure everyone in the home can easily open and close your new windows. Our double-hung windows feature a balance system that allows two-finger operation and tilt-in technology that makes maintenance a breeze. Casements and awnings are ideal for small or hard-to-reach areas, operating with a simple hand crank that makes opening or closing them an effortless task.

OUR APPROACH

Our windows insulate as well as elevate, tirelessly working to seal out the elements and create homes that are protected, comfortable, and quiet. The path to perfect windows and doors has never been more clear.

Window features

1 VINYL FRAME

Crafted with an exquisite eye for detail, the V4500 windows will allow you to enjoy low-maintenance, high-performance vinyl with long-lasting comfort.

2 BALANCE SYSTEM

Self-tensioning block and tackle balance system; same system used by the higher cost, name brands.

3 EXCEPTIONAL DETAIL

Double-contoured, narrow-line window design emulates the look of traditional wood-frame windows.

4 ENERGY EFFICIENT

Tested and built for your climate, our windows and doors meet or exceed ENERGY STAR® requirements for energy performance.

5 LIFETIME NON-PRORATED TRANSFERABLE WARRANTY

Lifetime warranty guarantees coverage over the full window: the frame, hardware, moving parts, insulated glass, and screen.

Reflect on endless possibilities

Your home is a reflection of you. Make a statement with finishes and glass, and grid options that harmonize with your home's look and style.

ENERGY STAR® QUALIFIED

Our products are designed to meet and often exceed ENERGY STAR® standards in the climate zones we serve. We even have products that have received the highest rating of ENERGY STAR Most Efficient, an elite ranking achieved by few.

CERTIFIED QUALITY AND PERFORMANCE

AAMA Gold Label certification is more than a seal of approval; it's an indication of a manufacturer's commitment to delivering the highest quality products.

To achieve Gold Label status, products are put through stringent testing to prove they can meet the American Architectural Manufacturers Association's (AAMA) performance standards and National Fenestration Ratings Council (NFRC) thermal standards, as well as passing random product and facility inspections to ensure that consistent delivery of top Gold-Label-quality products.

AAMA GOLD LABEL REQUIREMENTS

- Testing by an independent, AAMA-approved third-party lab
- Air infiltration rating of 0.30 cubic feet per minute or lower when wind speeds are at 25 mph
- Resistance to water leakage in winds speeds up to 33 mph
- Structural strength to withstand at least 94 mph of wind pressure
- Production line inspections
- Unannounced plant inspections
- Meet or exceed NFRC standards for U-Factor, SHGC, and Visible transmittance

A large industrial window is being processed by a robotic arm in a factory setting. The window is held in a frame, and the robotic arm is positioned above it. The background shows various industrial equipment and a blue sign with the word "Sunrise" and "V4500" below it. The scene is brightly lit, and the overall atmosphere is one of a modern manufacturing environment.

NEXT GENERATION SPACER TECHNOLOGY

Available exclusively on select Sunrise Collection™ windows, the 4SG spacer system is the only reactive thermoplastic spacer system on the market today. This one-piece, warm-edge spacer replaces the spacer bar, primary seal, and desiccant common on competitive spacer systems, offering a permanently flexible edge that is more forgiving under heat, pressure, and other environmental conditions.

Precision-Built for Performance

As an industry-leading manufacturer of residential replacement windows and patio doors, we take pride in producing products that boast the latest in high-performance and energy-efficient technology. Whether your home is in North, where temperatures get bitter cold, or in the South where the mercury climbs to extreme highs, Sunrise® Series V4500 windows and sliding patio doors leverage advanced fenestration technology to provide comfort for where you live, all year round.

SCIENTIFICALLY STRONGER

Sunrise® Series V4500 windows feature the latest in insulated glass technology: the 4SG Spacer System. Built for 21st-century homes, 4SG leverages basic chemistry to provide an exceptional system that performs all year long. The 4SG spacer chemically bonds to the glass, creating a nearly unbreakable seal that locks the insulating gas inside for decades. This, combined with the high elasticity thermoplastic material, results in a spacer designed to withstand the most extreme temperatures and pressure variations.

Permanently flexible material chemically bonds to glass, allowing the spacer to flex during natural expansion and compression cycling caused by changing environmental conditions without losing its seal.

IGU GLASS PACKAGES

6-Layer Glass

Six layers of high performance reflective metallic shields applied to the glass surface. Used in dual pane Passive Max IGUs.

8-Layer Glass

Eight layers of high performance reflective metallic shields applied to the glass surface. Used in dual and triple pane Ultra Max IGUs.

12-Layer Glass

Twelve layers of high performance reflective metallic shields applied to the glass surface. Used in dual pane Omega Max IGUs.

THERMAL COATINGS

Sunrise® Series V4500 windows and patio doors are available with Thermal U Plus™ interior low-e coatings. These coatings are scratch-resistant, long-lasting, and when combined with argon fill between the glass, products with Thermal U Plus outperform conventional windows and keep your home comfortable in every season.

What is Low-E?

Low-E glass blocks the bad stuff and lets in only the light you want.

What is Thermal U Plus?

Thermal U Plus is a series of micro-thin coatings on the surface of the glass.

NOISE REDUCTION GLASS

Reduce disruption from the noise outside by choosing our optional Noise Reduction Glass option. This glass package provides superior energy performance while keeping your home quieter — at a fraction of the cost of traditional sound abatement options.

Sound Transmission Classification (STC)

The higher the STC Value, the greater the noise reduction.

CHANGES IN STC RATING	CHANGES IN APPARENT LOUDNESS
+/- 1	Almost imperceptible
+/- 3	Just perceptible
+/- 5	Clearly noticeable
+/- 10	Twice (or half) as loud

Sound reduction in windows and doors is tested and most commonly rated for comparison using a Sound Transmission Class (STC) rating. V4500 windows are tested and rated to ASTM E(90) for Sound Transmission (test sizes per ASTM E1425). STC ratings will vary by product type. Data compiled from stcratings.com

EFFICIENCY FOR ALL REGIONS

Offering a variety of glass packages to meet ENERGY STAR® 7.0 in all designated zones, Sunrise Collection™ products delivery the right mix of performance attributes to qualify, save energy, and perform for the long term. Look for glass packages marked "Most Efficient" as those products meet the stringent requirements necessary to receive tax rebates for window and doors.

OUR COMMITMENT TO YOU

We have a dedication to quality and build our windows and patio doors to last. With Sunrise® Series V4500, you're covered for as long as you own your home with our industry-leading Lifetime Non-Prorated Transferable warranty. This warranty covers everything from corner welding on the frame and sashes, to hardware components, to glass itself.

See complete details at miwindows.com/warranty

OUR GOAL IS 100% TROUBLE-FREE

With a goal of 100% trouble-free, our teams work tirelessly to help ensure your project stays on track.

From regular inspections and quality audits throughout the manufacturing process, we strive to ensure that the final product you receive meets our high standards.

In addition, MI windows and patio doors carry the American Architectural Manufacturers Association (AAMA) Gold Label to show they have met their strict requirements, which are tested and certified by a third party. This rigorous testing includes water penetration, air leakage, structural integrity, and Forced Entry Resistance.
